Hi Laura: See note below from Deb Thomas. Could you send me your compilation of sites? Sandy Stavnes wasn't able to do so on her phone. Thanks much!

Bill and Julie,

Joan asked me to coordinate with the two of you to pull together a summary of mines in Region 8 that may have similar circumstances as the Gold King Mine. Julie, I know you have already done some of this for MT. Could you please get with Bill and combine information for all of Region 8. For those mines with leaking adits explain why or why they are not like GKM. Let me know if it is possible to provide this information today. Please call with questions.
